

## **Time Traxx Medley**

Another day . . .

Come to pass another day  
Just to be yet unaware  
Without someone to love daily  
There is only despair

### **Another Day 2525**

Another day . . .

Come to pass another day  
Just to be yet unaware  
Without someone to love daily  
There is only despair

Look around and you'll see  
Life is going but we're growing older  
As the world turns around  
Summer's hot and winter's getting colder  
Understand what is real  
Just remember it was some beginning  
Don't forget there will be  
Another day and then the final ending  
Could be another day  
Or was it yesterday, yesterday, yesterday, yesterday . . .

In a world full of people  
There is both a little hope and sorrow  
Like a flower, you will live

For a while and then you'll die tomorrow  
Will be another day  
Whenever yesterday comes

Remember we were very young  
And as we grew, it was so fun  
Remember it wasn't such a long time ago  
Another day, the world goes on  
But for a while and then its gone  
Another day passes, and there's one place to go

Another day, another day, another day  
Another day, another day

## **The World Goes On**

You can drive your car to work  
But the world goes on  
You can read a magazine  
And the world goes on  
You can wear a yellow shirt  
But the world goes on  
You can brush your teeth with Gleam  
And the world goes on  
Now c'mon, get it

You can bake an apple pie  
But the world goes on  
You can ride your bike around  
And the world goes on  
You can run a traffic light  
But the world goes on

You can walk the dog around  
And the world goes on

What are we doin'  
The world is spinnin' 'round  
Just make-believin'  
The world is running down

You can drive your car to work  
But the world goes on  
You can read a magazine  
And the world goes on  
You can wear a yellow shit  
But the world goes on  
You can brush your teeth with Gleam  
And the world goes on

What are we doin'  
The world is spinnin' 'round  
Just make-believin'  
The world is running down  
What are we doin'  
The world is spinnin' 'round  
Just make-believin'  
The world is running down

## **Sing And Dance**

Take another glance, whoa  
Watch another dance  
The show-whoa is just beginning  
Make another sound, well heyeay

Sing another round and playeay  
While we are dancing  
A fancy girl, and an ole time lover

Try another key, you know-whoa  
Do it naturally  
As though-whoa forever ending  
Well pick another chord that rings  
Music to adore and sing with feet a-tapping  
Tapping, tap, tap, tap, tap  
An empty room or the center of Broadway

Sing and dance  
We sing and dance  
Sing and dance  
We sing and dance  
Sing and dance  
Oh silly me, I sing and dance  
Sing and dance  
We sing and dance  
Sing and dance  
We sing and dance  
Sing and dance  
Oh silly me, I sing and dance

One, two, three, four five, six, seven, eight  
One, two, three, four five, six, seven, eight

## **Holiday**

It could be a holiday when lovers first say hello  
A time to celebrate  
And share with one another every moment all the love you know  
It is a lucky day and we are lovers on the go  
Before it gets too late  
I think the two of us should find a way to be together

This is a holiday, baby, your holiday, your holiday

It could happen any day, lovers accidentally meet  
A very special time  
To honor and remember that forever there will always be  
Another holiday when you are special to me  
The time is getting near  
I hope the two of us will find a way to be together

It's a holiday, it's a holiday, holiday, holiday  
It's a holiday, it's a holiday  
Every day is a holiday baby  
Holiday, holiday, it's a holiday  
Ho, ho, ho, ho, holiday, holiday  
It's a holiday, it's a holiday  
Every day is a holiday

## **Plain To See**

Every day you stay  
Oh so far, so far away from me  
And you think you know

Everything you show to me  
Anyway you may  
Find the words to say to me  
Haven't got the time  
Anything unkind to me

Won't you be with me  
Make it plain to see  
Won't you be with me  
Then make it plain to see  
Won't you be with me  
Make it plain to see  
Won't you be with me  
Then make it plain to see  
Won't you be with me  
Don't you know it's plain to see  
Make it plain to see  
Make it plain to see  
Make it plain to see, won't you be with me, make it plain to see  
Make it plain to see  
Make it plain to see  
Make it plain to see, won't you be with me, make it plain to see  
Make it plain to see  
Make it plain to see

### **Another Day Reprise**

Come to pass, another day  
Will I ever find the way  
Lost my only love, too late  
I have thrown it all away  
Way, way, way, way

Another day, another day  
Another day, another day, ‘eay, ‘eay, ‘eay, ‘eay

To find a beautiful girl who will dance  
There’s only one thing to do  
Release the past now and take a chance  
Looking for something new  
C’mon a party’s happening here  
The moon is shining bright tonight  
With absolutely nothing to fear

Cause it’s another day, another day, another day, another day  
It’s just another ole day, yea  
It’s just another ole day, ‘eay, ‘eay, eay, ‘eay, ‘eay  
It’s just another ole day, yea  
It’s just another ole day, ‘eay, ‘eay, eay, ‘eay, ‘eay

## **Time Is Changing**

Time is changing the imagination  
Time is changing our biology  
Time is changing every constellation  
Time is changing all the energy  
Time is changing with the law of motion  
Time is changing to infinity  
Time is changing Darwin’s evolution  
Time is changing our ecology  
Time is changing every generation  
Time is changing our chemistry  
Time is changing all your calculations  
Time is changing the economy

Time is changing, that's a revelation  
Time is changing our philosophy  
Time is changing even gravitation  
Time is changing peace and harmony  
Time is changing, there's a revolution  
Time is changing everything we see  
Time is changing all the vegetation  
Time is changing our psychology  
Time is changing the constitution  
Time is changing, that's reality  
Time is changing the world population  
Time is changing all humanity  
Time is changing, it's a new sensation  
Time is changing sexual fantasy  
Time is changing, there's a celebration  
Time is changing with the tendency

The tendency to do, to, to go all the way  
Time is the vehicle of existence  
The medium upon which we were all  
Born, live and grow by, and then die  
Yesterday, today, tomorrow are the same  
For there will always be another day
