

## All The Way

Well do you have any idea what you're doin' to me girl?  
C'mon girl, you say go . . .

Oh listen to the words you never tell me  
Playing like you hurt and then you bend and tease me  
You bend and tease me  
Well hey now are you mine?  
You should be baby  
Party all the time  
You're about to drive me crazy  
Ca, Ca, Crazy, crazy  
Oh show me what you know  
Take me all the way  
Playing like you hurt and then you bend and tease  
But never all the way

All the way, all the way  
Let's go all the way  
All the way, all the way, all the way, all the way, all the way  
Let's go the way  
All the way

So close to me  
You're very close and yet so far away  
We're in harmony

Well listen to the words you never tell me  
Well tell me, you tell me  
Playing like you hurt and you bend and tease me  
Bend me, tease (*end spoken*)  
Well show me what you know

Take me all the way  
Party all the time, you drive me crazy  
But never all the way, way  
All the way

Ca, Ca, Ca, Crazy, you make me crazy, crazy, crazy  
Crazy, you're crazy, crazy, crazy, crazy  
What are you tryin' to do to me?

So close to me  
You're very close and yet so far away  
We're in harmony

Listen to the words you never tell me  
Playing like you hurt and then you bend and tease me  
Tease me, tease me, tease  
Oh show me what you know  
Take me all the way  
Playing like you hurt and then you bend and tease  
But never all the way

All the way, all the way, all the way, all the way  
Let's go all the way, way  
All the way, all the way, all the way, all the way, all the way  
Let's go the way  
All the way, all the way, all the way, all the way, all the way  
Let's go all the way, go all the way  
All the way
