

All My Love

We were meant to fall in love
A magic moment from above
Look up high into the sky and
You'll see the one who made this true
There is a place for me and you
Forever

Think of all the times we had
The moments shared were never sad
Having fun on every Sunday
In front of me my love you lay
I give you all my love today and
Forever

We share a love that few have known
We're in a world our very own
You hear the music from above
That's why I give you all my love
I give you all my love
I give you all my love
I give you all my love

We have got so much to do
All my love I give to you
We're together now for better
In front of me my love you lay
I give you all my love today and
Forever

We share a love that few have known
We're in a world our very own

You hear the music from above
That's why I give you all my love
I give you all my love
That's why I give you all my love
I give you all my love
I give you all my love
I give you all my love
