

## When The Night Comes

You look so beautiful when you're near  
Your face is so sweet  
I hope you'll understand what I have to say  
I want you so much

I wanna be with you . . . girl

They'll come a certain day whenever things feel right  
And then I see you girl  
Images are flooding my mind  
A da da da da, a da da da da  
A da da da da, a da da da da  
For there will be an eye in the sky watching you all the time

So when the night comes, please be near  
And when the night comes, you'll be here  
So when the night comes, please be near  
And when the night comes, you'll be here

To feel the cool wind blow before the sun goes down  
And then to hear you, music is now filling my mind

I wanna be with you when the night comes  
When the night comes  
I wanna be with you when the night comes  
Cause love is the air like a bird for a moment in time

You're so far away my dear  
I wish you were here  
But I want you to know  
I'm missing you so

Love is in the air like a bird for a moment in time, time, time  
Love is in the air like a bird for a moment in time, time, time

I wanna be with you . . . girl, girl . . . girl  
I wanna be with you . . . girl, girl

So when the night comes, please be near  
And when the night comes, you'll be here  
So when the night comes, please be near  
And when the night comes, you'll be here  
So when the night comes, please be near  
And when the night comes, you'll be here
